## PROFILE SUMMARY:-

- **Full-Stack Developer** focused on building reliable web applications with a strong interest in **Data Structures & Algorithms**. Passionate about clean coding and translating complex requirements into efficient, logic-based solutions. Dedicated to continuous learning and staying updated with modern **MERN stack** practices to deliver production-ready digital products.

## Experience:-

### Capco Insurance | Web-Developer

January 2026 – Present

- **Insurance Systems:** Actively contributing to high-logic web solutions for insurance workflows, focusing on secure data handling and application scalability, team-based development to ensure production-ready stability.
- **Technical Growth:** Gaining hands-on experience in optimizing system architecture to handle complex data with 100% accuracy and high-speed performance.

### NetParam Technology Pvt. Ltd | MERN Stack Inter

July– December 2025

- **Production E-Commerce:** Contributed to a live MERN application, collaborating with seniors on **REST APIs** and **Git** workflows. Collaborated with senior developers using Git, REST APIs, and modern MERN practices.
- **Optimization:** Leveraged **AI-powered tools** for rapid debugging and performance tuning in real-world deployment cycles.

## PROJECTS:-

### Car Rental

**Tech Stack:** React.js, Tailwind CSS, Node.js, Local Storage, Express.js, MongoDB Atlas, ImageKit, JWT, Bcrypt, NodeMailer, Multer, Crypto, RazorPay, Motion, React Hot Toast.

- **Financial & Security Integration:** Integrated **Razorpay** for secure payments with automated invoicing and implemented **JWT/Bcrypt** for 100% protected user authentication.
- **Performance & UX:** Optimized load times by **45%** using **ImageKit + Multer** CDN and enhanced the interface with **Framer Motion** for a premium feel.

### Sterling Insurance Web App

**Tech Stack:** Nextjs, TypeScript, MongoDB Atlas, JWT, Bcrypt, Multer, AWS, NodeMailer, Lucide-React.

- **Wholesale Admin Ecosystem:** Built a powerful Admin Panel to manage global insurance submissions, create carrier quotes, and track the entire policy lifecycle from start to finish.
- **Automated PDF Engine:** Developed a smart system that instantly generates professional, pre-filled Insurance Proposals and Carrier Forms based on the data users enter into the forms.
- **Secure 3-Tier Workflow:** Engineered a secure environment for Agencies, Admins, and Clients with real-time status tracking (Submitted → Approved → Bound).

## Technical Skills:-

- **Programming Languages:** Java, JavaScript, TypeScript
- **Web Development:** HTML, CSS, JavaScript, React.js, Nextjs, Tailwind CSS, Styled Component, Redux, Node.js, Express.js
- **Database Management:** MongoDB
- **Tools:** Git, GitHub, Visual Studio Code, MongoDB Atlas, Figma

## Soft Skills:-

- Leadership
- TeamWork
- Problem Solving
- Adaptability
- Quick learner

## CERTIFICATIONS:-

- **CHNA**– Computer Hardware and Network Administrator.
- **Web-Development** From Apna College.
- **Internship**– MERN Stack Developer.

## EDUCATION:-

- **BCA** (Bachelor of Computer Applications)  
SGN Khalsa PG College, SriGanganagar

**Percentage: 72%| 2022 – 2025**
